

Ashley Famularo

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in Cybersecurity. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

EXPERIENCE

Software Engineer at 100devs, Remote

JUNE 2022 - PRESENT

Collaborated with a team of developers to build modern and responsive web applications using best practices

Build semantically structured full stack web applications

Applied agile methodologies like SCRUM for project management

Web Developer at Central PA LGBT History Project, Harrisburg, PA

NOVEMBER 2019 - PRESENT

Created and presently maintaining local History Project's full stack web application. Also, consulted on SEO and social media strategy.

RECENT PROJECTS

Hip Coffee Co. (Fullstack Web App)

Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, and mark them as complete. Orders that have been completed will note which barista completed the order.

Happy Notes (Fullstack Web App)

Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

100Hours Project
